Education

Bachelor of Science in Computer Science

Sonoma State University, CA | August 2021 - (Expected) May 2024

Job Experience

Starbucks Shift Supervisor

Healdsburg, CA | June 4, 2018 - Present

- Learned how to work well as a team to handle 500+ customers per day
- Developed the ability to learn in a very fast paced and dynamic environment
- Responsible for maintaining company standards as a keyholder
- Promoted from Barista to Barista Trainer and then to Shift Supervisor

Projects

- Created a rudimentary program in collaboration with a partner that used a large set of data to determine if an incoming email was spam or not
- Created a rudimentary social media which could handle +10,000 users while keeping track of user information, who follows who, and created html files for each user
- Created a Wordle guessing program where the program works to determine the correct Wordle word
- Created an ascii worm game similar to the classic snake game

Key Skills

- Programming Languages (Order of experience): C++, Python, and some HTML, JavaScript, and CSS
- Proficient in Linux command line
- IDEs I have experience with: Clion, Microsoft Visual Studio, and XCode
- Proficient in Adobe Products for design (i.e. Photoshop, Illustrator, After Effects, Premiere Pro, etc.)
- Work well with others for small and larger projects
- Work well in teams and have experience with helping others or taking charge when needed
- Speak a little French and Spanish

Awards and Activities

- Voted by my peers as Partner of the Quarter - 2021
- Part of the Starbucks North Bay SSV ADP, a program designed to help supervisors develop coaching abilities and leadership skills
- Specialized in my workplace, gaining the title of "Coffee Master"
